Looking Thru A Window - Ruberta Peterson

## JOINING FABRIC STRIPS

When you don't have enough fabric to create one long piece, join your fabric strips on an angle to create a seamless effect.

1. Lay the first strip of fabric, right side up, along a straight edge. Place the second strip of fabric, wrong side up, as shown in Figure 1. With a ruler and marking pencil, mark from corner to corner across the two pieces as shown by the dotted line. Pin and sew along this line.
2. Clip the excess fabric and press the seam allowances open, as shown in Figure 2.
